25X1 /16:CIA-RDP82-00047R000200510002**5**X1 Approved For Release 2005/05 China up until sometime in 1950 at which time a dictionary was compiled covering Chinese terms for everybranch of the sciences. 25X1 25X1 had to invent a Chinese term for "Bunsen Burner" which would adequately describe the article and yet use some well known Chinese word. Nearly all the Chinese colleges and universities contributed to this dictionary, which was afterwards assembled by a committee located 25X1 in Peking; a final draft was prepared by the committee. in late 1951, the committee was still assembling rough drafts from the various schools in China. 6. Peking Union Medical College PUMC at Peking was the outstanding medical college in China and perhaps even in Asia. 25X1 PHMC trains students primarily for teaching and also for specialization in the medical field and for clinical work. It was a complete medical school with extremely hard entrance exams which were given to pre-medical students from all the colleges and universities having such courses throughout China as well as Asia. FUMC used Harvard as a standard, and, as a matter of fact, most of its faculty were educated at Harvard. The departments at PUMC are divided into two divisions, pre-clinic and clinic. The pre-clinic departments, together with their deans, were: Anatomy Dr Chang Bacteriology Dr Liang Biochemistry Physiology Dr Chang 树正祥 Pathology Dr Hu Pharmacology Dr Ching The departments under the clinic division are: Medicine Dr Chang Surgery Dr Wu Obstetrics and Gynecology Dr Lim All the above professors are not only well known in medical circles in China but are well known internationally. 25X1 they now have no time for study or research but must devote all of their time to teaching 25X1 greatly expanded classes and to absorbing Communist propaganda themselves. West China Union University /WCUU/ at Chengtu. 25X1 ` The university was composed of three colleges, science and arts, medicine and dentistry. there were over 2000 students of whom approx-25X1 imately 20% were girls. The general standard of WCUU was lower than Soochow Univer-25X1 sity, and, of course, the medical school cannot compare with PUMC. However, college of dentistry is nationally famous in China and is an excellent one. 25X1 the dean of the medical school who was Do Hao a pathologist. 25X1 Dr. Han is now in Hong Kong having left WCUU in 1946. is a graduate of PUMC and has done graduate work at Harvard. 25X1
